## ANNOUNCEMENT.

We are authorized to announce the HON. CHARLES BLANFORD, as a candidate for the Legislature. Subject to the action of the Breckenridge County Republican Convention, July 19th.

## SIX PAGES.

## THE CONVENTION.

The County Convention which met at Hardinsburg last Monday was a fairly representative body, the delegates being made up of some of the leading business men in the county. Outside of the delegates those who gathered in the convention hall to witness the proceedings were also representative men from every quarter. Of course, the all absorbing theme was the money question. While it was generally conceded that a majority of the delegates favored free and unlimited coinage, there seemed to be a faint hope upon the part of some of the opposition, that they would not undertake to pass a resolution to that effect, but in this some were mistaken. The resolution as produced in another column shows clearly the sentiment of the delegates upon the question and it has no uncertain bearing.

Our delegates go to the State convention bearing the will of the Democrats of this county upon that subject, and it must be admitted that such Democrats stand clearly and decidedly in the majority. An effort was made upon the part of those advocating the single gold standard theory to get in a resolution indorsing President Cleveland and his administration, but it was met by an overwhelming opposition. The people do not indorse Mr. Cleveland and Secretary Carlisle's policy on the financial question just now. If the President and Secretary have gotten away from Democratic principles, they should not blame those who are still trying to maintain them, and who are advocating sound Democracy. The Democratic party has always been committed to free silver and it is the more singular that those who now espouse the doctrine, but a few years ago were among its staunchest advocates.

The News does not try to deceive or mislead any of its readers upon this subject, but truth strikes at the bottom and that's what we want. Neither do we wish to create turmoil and discord in Democratic ranks, but we do wish to recognize and respect the will of the majority and not suppress the truth with any quarter. That a good majority of Democrats here are for free coinage is undeniable, that they recognize it as the vital issue between parties to-day is also true. That they honestly and conscientiously wish its ultimate adoption by the party, is quite apparent. If the balance of the state is to be so judged, and from the tone of the press we think its leaning strongly that way, then let us have it, so though it disappoint Mr. Carlisle. But at last the people are the arbiters of these things. They make up the Government. Governments are instituted for their protection. If at any time they wish to change a measure, why thwart their will. Here they are saying that something is wrong with the finance. Let them have the chance to right it if they can, and God speed the day when better times may come upon us all.

HARDIN has 289 instructed votes, Clay 209 and there are 380 uninstructed votes. It is not in the books to down Hardin.

## LODIBURG.

The following is copied from the Monthly Sentinel, a Populist paper published at Chicago. It goes to show how the free silver element in the Democratic party is being used to get in office. "Don't let us throw stones at the free silver Democrats. They are doing a magnificent work. They are going to split the Bourbon party wide open in 1896; and then there will be a chance for free silver Democrats to honorably combine with the Populists on the principles of the Omaha Platform. Reinforced by the better elements of the Republican party, the country can be swept like a cyclone from the Allegheny mountains to the Pacific coast and from the lakes to the gulf."

Not only is it the policy of the Populists to encourage the free silver Democrats, but it would be a good thing to instigate a free silver Republican movement. Make the fight as hot as possible for the better it is the harder it will be for the managers to keep the old-party forces in line in 1896."

Now you can see how the free silver element is caught in a trap set by such men as Coxie, Debs, Spies, Friedlander and Schwab. The Editors of free silver papers, and the public speakers that are going the rounds, will, if successful in adopting a free silver plank in the next State platform, drive thousands of honest Democrat voters out of the party, and John Young Brown will hand the reins of the State government to William O. Bradley as sure as the sun rises in the East and sets in the West. A Democrat that is for free silver ought to be booted and drummed out of camp. (This is a bogus pure and simple. Study your Democratic catechism, my dear brother, and see where you are at.—Ed.)

THEY ARE FOR FREE SILVER AT 16 TO 1 AND SEND

The Democratic Convention of Breckenridge county met at the court-house Monday the 17th day of June 1895 for the purpose of nominating delegates to the State convention which assembles at Louisville on the 25th day of June.

Stephensport—L. R. Adkinson and W. E. Minor.

The Committee on permanent organization then brought in their report as follows: We recommend for permanent chairman of the Convention, the Hon. D. R. Murray, and Secretary, R. P. Shacklett.

The Committee on resolutions reported as follows: We, the representatives of the Democracy of Breckenridge county, re-affirm our faith in, and loyalty to the principles of the Democratic party, believing that in those principles lie the safety, prosperity and permanency of our government, the perpetuity of our institutions and the preservation of the liberty and happiness of the people.

2d.—As truth is mighty and must prevail, so is Democracy truth and must prevail. Temporary defeat may sometimes meet us, but triumph is sure in the end; and we go forth to the coming contest with zeal, courage and faith, and the assurance that we battle for the right and for victory.

3d.—It is the sense of the delegates in this Convention assembled that the best interests of the whole people will be best served by the free and unlimited coinage of silver at the ratio of 16 to 1. Our delegates to the State Convention are requested to vote for such resolutions as will secure harmony in the party, as we believe that the whole people will be best served by the free and unlimited coinage of silver at the ratio of 16 to 1. Our delegates to the State Convention are requested to vote for such resolutions as will secure harmony in the party, as we believe that the whole people will be best served by the free and unlimited coinage of silver at the ratio of 16 to 1.

4th.—Our delegates are instructed to cast the vote of Breckenridge county for Hon. P. W. Hardin for Governor, as long as his name is before the State Democratic Convention.

5th.—We heartily endorse our countyman, Hon. W. E. Minor for Commissioner of Agriculture, and our delegates are instructed to use all honorable means to secure his nomination.

6th.—Our delegates are instructed to vote as a unit on all propositions and questions. Which resolutions were adopted.

Upon the adoption of these resolutions there was a hot debate for a few minutes. Parties in the hall who were not delegated undertook to obtain the floor, to debate the question, but the Chairman promptly ruled them out of order, unless

Mrs. Anna Gage, wife of Ex-Deputy U. S. Marshal, Columbus, Kan., says:

"I was delivered of TWINS in less than 30 minutes and with scarcely any pain after using only two bottles of

the members of the Convention would consent to hear them.

Gen. A. J. Gross rose to his feet and asked for five minutes time of the Convention. A member moved that Mr. Gross be heard. Mr. Gross then gave it as his opinion that the Convention should indorse Grover Cleveland and his administration. He was opposed to the resolution offered before the body on money and thought it in bad taste to take any action on that question. There were a half dozen men ready at once to answer Gen. Gross' argument, and several men were on their feet at once. Mr. Murray vacated the chair and replied to Mr. Gross' argument in a few words, and when the motion was taken on the adoption of the resolution the delegates were overwhelmingly in favor of it.

The silver resolution went through with a vim.

Mr. R. C. Richardson moved to strike out the fourth resolution which was defeated. Mr. Richardson was a Clay man and insisted on being heard in the Convention. A motion was then made to reconsider Mr. Richardson's motion, which was carried. Then upon a vote of the Convention the fourth resolution was struck out, and the names of both Clay and Hardin placed before the Convention. The Convention decided then by an overwhelming majority that the delegates be instructed to cast their vote for Hardin. Then the fourth resolution was re-adopted.

The following persons were elected delegates and alternates:

Delegates—D. R. Murray, James Stuart, Jesse Whitworth, John D. Babbage, W. E. Minor, Richard Owen and S. S. Watkins.

Alternates—John Alexander, D. H. Severn, M. Meyer, James Lyons, Dr. J. T. Baker, Dr. R. T. Dempster and V. G. Babbage. Then upon motion the Convention adjourned.

## NOTES.

Cleveland vetoed the action of the Democratic Congress on the bond issue. If you endorse Cleveland, do you not repudiate the action of the Representatives of the people?—W. E. Minor.

It is not a question of repudiation of Cleveland and Carlisle. It is simply an expression of the views of the people on the financial question. Every man has the right of opinion—D. R. Murray.

The Democratic party has always been close to the people. Let it remain there.—D. R. Murray.

If the United States was powerful enough to demonstrate silver in 1878 it is powerful enough to remonetize it in 1896.—Murray.

Is not Breckenridge county for free coinage of silver?

Gentlemen, let the people have a voice on this question and abide by their verdict. Will you do it?

The State Democratic Convention will act. Stand by your guns and be Democrats even if your view is not accepted by the majority.

Dave Murray was the right man in the right place as Chairman. He was up to all the tricks of the opposition and never lost his head.

Carl Richardson made a brave fight but was knocked out on every proposition.

The people are with the silver movement and there's no getting around the fact.

Jack Gross don't seem to carry Breckenridge county in his vest pocket any longer.
